

TENSIDE ConcECO

Information Sheet

Degreasing agent

CHEMICAL AND PHYSICAL CHARACTERISTICS

Composition	fatty alcohols ethoxylated
Appearance (20°C)	limpid liquid yellow
pH (20°C) sol.1:10	5,5 - 7,5
Active continets	80±2%
Ionic charge	non-ionic/anionic
Bio-Degradability	above 99%
Solubilty	soluble in water
Storage stability	at ambient temperature the product is durable 12 months

This product is durable to the normal electrolytes used by tanneries

CHARACTERISTICS and Application

TENSIDE CONC-ECO is a particular formulation of ethoxylated alcohol having an excellent degreasing emulsifying power, and wetting on the skin of goat, wether and sheep.

TENSIDE CONC-ECO is ideal in degreasing operation of fatty leathers, being like solvent but with a better biodegradable characteristics.

TENSIDE CONC-ECO has a good emulsifying properties on natural fats: it's extremely useful after shaving, during wash as auxiliary to prepare the leather to the future retanning steps.

TENSIDE CONC-ECO can also be used to emulsify the fatliquors blend.

PERCENTAGES

SOAKING AND LIMING : 0,1 – 0,3 % on fresh salted weight

DEGREASING : 2,0 – 6,0% on fresh weight

1 - 3% on shaved weight
